### TAKI-AUE/ TANGIHANGA GUIDELINES DURING COVID 19

<b>LEVELS</b>	<b>Preparing tūpāpaku</b>	<b>Holding Taki – Aue / Tangihanga</b>	<b>Manuhiri</b>	<b>Memorial Service</b>
<b>LEVEL 4</b>	It's contagious so leave to undertakers or people that have full protective gear.	<b>NO TANGIHANGA</b> will be held and strict protocols will be in place. Your tūpāpaku may also be cremated. <b>One day Tangihanga only.</b>	<b>NO Manuhiri</b> , so we will have to do everything online or by phone. Make it work whānau.	<b>Work as a whānau</b> to set a date after the pandemic.
<b>LEVEL 3</b>	Work with undertakers and officials	Tangihanga will be small and numbers restricted so send your aroha online or by phone.	Be a good Manuhiri and stay home but send your aroha in other ways and use technology to connect.	Work as a whānau to set a date after the pandemic or you could also use the unveiling to remember your loved one.
<b>LEVEL 2</b>	Undertakers will guide you	Tangihanga will be small and numbers restricted so send your aroha online or by phone.	Manuhiri are welcome but try to encourage that the numbers stay small for now.	Don't over burden yourselves with extra financial expense as you would have had people attend anyway.
<b>LEVEL 1</b>	Going back to normal with some changes	Tangihanga will be semi-normal with strict hygiene requirements in place.	Manuhiri will have hygiene and sanitation stations at waharoa and around the marae. Washing of hands will also be encouraged.	Again, don't over burden yourselves with extra financial expense as you would have had people attend anyway.
